## Remote Control for Windows Vista® Media Center

GRC100

Conveniently access your Windows® Vista™ Media Center PC via remote control. Control all of your TV shows, movies, music, photo albums and other Vista Media Center Edition functions. With the 49 button configuration, you can watch, record and rewind live TV, shuffle your entire music collection according to artist or genre, tune in FM stations, pause live radio and edit your entire digital photo and video library. The Diamond Remote Control for Windows® Vista™ Media Center uses standard Windows drivers with no additional software to install and is Xbox-Ready.

### **System Requirements**

- 1 GHz CPU clock
- 512 MB System RAM or above
- Microsoft® Vista™ Home Premium or Ultimate
- USB Port; PC platform
