TB3000DS

Diamond Ultra-Dock Thunderbolt™ 3 Docking Station – TB3000DS

Introducing the Diamond Ultra-Dock Thunderbolt 3 Docking Station. It brings new possibilities for enhancing and expanding your Thunderbolt-3 compatible PC or Mac. This new, powerful Docking Station offers one single connection for wired Ethernet network connectivity, multiple USB connections and additional monitor displays at high-resolutions and high-speeds, utilizing your PC's native graphics processing capabilities.

Featuring Power Delivery Charging Technology

With Power Delivery Charging technology, the Diamond Ultra-Dock Thunderbolt 3 Docking Station allows an upstream charging function through the Thunderbolt interface - charge and access all of your USB devices with one single connection to the laptop. Connect to printers, USB hard-drives, headphones, keyboards and mouse with ease.

Universal Connectivity to Any Device, on Any Operating System

The Front-Loading side features access to: two USB 3.0 ports, an easy access audio port and an SD-card slot. The Back side features: three USB 3.0 ports, a Gigabit Ethernet port, two Thunderbolt-3 USB-C ports, an HDMI port and a power adapter port.
