

Diamond UV Sanitizers

UVWANDX

Kills 99.99% of Harmful Germs, Viruses and Bacteria

UV Light Sanitizing Wand

UV light has long been used for eliminating germs and bacteria by effectively destroying their DNA & RNA. It has been widely used in the medical field with its high disinfection rate. UVC LED reproduces UVC light, using LED beads. It is a 100% clean and energy efficient way to sterilize any object or surface.

The **Diamond** UV Light Sanitizing Wand uses UVC LED, and disinfects any surface area and eliminates up to 99.9% of germs, viruses and bacteria. Great for travel. Just wave the wand back and forth over any surface and kill harmful exposed germs and viruses.

Specifications:

- **Model:** UVWANDX
- Disinfect, sterilize
- Eliminate 99.9% of harmful viruses, germs and bacteria
- 360° Omnidirectional Sterilization
- Number of Lamp beads: 20 UVC LED
- Ultraviolet wavelength: 270-280 nm
- Charging Type: Micro USB
- Built-in Lithium Ion Rechargeable Battery
- Size: 10.23 in x 1.7 in x 1 in
- Material: ABS + UV light
- Package Accessories: USB cable and manual
- Fully charged: Approx. 5-6 hours of use
- Certificates: CE, FCC, ROHS, SGS, EMC and G-Micro Tested

Features:

- **Model: UVWANDX**
- 20 UVC LED Light Beads: 100% Ozone Free
- Portable and easy to use - disinfects and eliminates up to 99.9% of germs, viruses and bacteria. No water or cleaner needed
- Perfect for home, office and travel - Make your life easier with a simple press and scan. Apply UV light directly to any surface area, i.e. sofa, bed, bathtub, towel, mat, carpet, keyboard and more. Enjoy a healthier life with less germs in your environment by eliminating 99.9% of germs, viruses and bacteria
- Charging Interface: Micro USB (Works with any 5V USB charger)
- Built-in Lithium Ion Rechargeable Battery
- Auto shutoff: Built-in smart sensor shuts down automatically when it is over turned during sterilization process
- Portable and easy to use: Lightweight and portable with built-in battery. It can easily be stored in a handbag, backpack or luggage. Disinfect whenever and wherever you go.

Sterilize and Disinfect with UV Light Any Surface Area and Eliminate 99.9% of Germs, Viruses and Bacteria
