

# THUNDERBOLT™ 3 Docking Station

TB3MDS

## Diamond Ultra-Dock Thunderbolt™ 3 Docking Station – TB3MDS

This new, compact, yet powerful, Docking Station offers one single connection for wired Ethernet network connectivity, two USB connections and two additional monitor displays. Thunderbolt 3 technology utilizes your PC's native graphics processing capabilities and enables you to run your high resolution displays connected through your docking station.

### Top and Side Connection

The other side and top feature a Gigabit Ethernet port, Display Port, an HDMI port and a Power adapter port, as well as a built-in Thunderbolt™ Cable.

### Side Connection

The left side features 2 USB 3.0 ports and an easy access audio port.

### Dual Video - Expand Your PC's Capabilities

Expand your view by giving yourself more screen real-estate. The Diamond Thunderbolt 3 Docking Station is equipped with video output. With 4K 60Hz resolutions, the **HDMI** port lets you mirror or extend your screen. This allows visibility of more applications simultaneously.

### Features:

- HDMI 2.0 4K@60Hz
- DP 1.4 4K@60Hz
- Single Video output 8K@30Hz
- Gigabit Ethernet Port
- USB 3.0 x 2
- USB Type C Thunderbolt 3 x 1
- 3.5mm Headphone/mic x 1
